Copperworks Celebrates Five-Year Anniversary with Single Cask Release of American Single Malt Whiskey

[Copperworks Distilling Co.](#) opened the doors to our distillery and tasting room on the Seattle waterfront in early October, 2013. To celebrate our five-year anniversary, we're excited to present a single cask release of Copperworks American Single Malt Whiskey. The release will be available at Copperworks tasting room and online store on October 13, 2018.

To acknowledge our fifth anniversary (considered the "wood" anniversary in the U.S.), we're offering Release 016, our first release of whiskey fully matured in 100% French Oak. Previous releases have been matured in new American Oak barrels.

This is the second single cask release Copperworks has offered and like all Copperworks American Single Malt Whiskey, this release is made from 100% malted barley and twice-distilled in traditional copper stills. But distinctive from previous releases, this whiskey was matured for 38 months in a full-size, new, French Oak barrel with a light (#1) char.

Tasting Notes: Aromas of apple skins, nutmeg, and sweet cream. Flavors start with dark cherry, then lead to more stewed fruit and figs. Finish is long and dry, with maple, white pepper, and burnt cream.

Availability: this single cask release of Copperworks American Single Malt Whiskey (Release 016) will be released on October 13 and available only at Copperworks Tasting Room and [Online Store](#). 750ml, 58.9% ABV, \$76.49 (not including taxes or shipping).

Copperworks First Five Years at a Glance:

- October 2013: Copperworks Distillery and Tasting Room opens on the Seattle waterfront
- December 2013: Copperworks Small Batch Gin wins a Gold Medal in the World Beverage Competition in Geneva, Switzerland. The first of many awards Copperworks spirits will go on to win
- April 2017: Copperworks Small Batch Gin and New Oak Cask Finished Gin both win the rare "Double Gold" award at the prestigious San Francisco Spirits Competition. New Oak Cask Finished Gin receives "Best of Category" award
- August 2016: Copperworks releases its first American Single Malt Whiskey

-
- October 2017: Jim Murray's *Whiskey Bible* (considered by many as the definitive whiskey review source) reviews Copperworks Whiskey: "Copperworks has raised the game considerably . . . a three course single malt if ever there was one."
 - March 2018: Copperworks is named "Distillery of the Year" by the American Distilling Institute

About Copperworks Distilling

[Copperworks Distilling Company](#) is a distillery, tasting room, and retail store located on the waterfront in downtown Seattle, Washington. The company produces American Single Malt Whiskey, a series of gins, and vodka, all from malted barley. Copperworks was founded in 2013 by Jason Parker and Micah Nutt — both experienced craft beer makers, who built Copperworks to explore the possibilities of malted barley by distilling high-quality, unhopped craft beer into fine distilled spirits.
